## Forward Looking Statements

Certain information discussed today constitutes forward-looking statements. Actual results could differ materially from those presented in the forward looking statements as a result of many factors including general economic conditions, weather, competitive conditions in the Company's industries, both in the U.S. and internationally, and additional factors that are described in the Company's publically-filed documents, including its ' 34 Act filings and the prospectuses prepared in connection with the Company's offerings.

This presentation includes financial information of which the Company's independent auditors have not completed their review. Although the Company believes that the assumptions upon which the financial information and its forward looking statements are based are reasonable, it can give no assurances that these assumptions will prove to be accurate.

## Pretax Income

## Pretax Income Q1 '16 to Q1'17 Bridge Graph

## Grain Group

## Q1'17 Highlights

- Base Grain improvement of $\$ 9.7$ million driven by better storage income
- Merchandising opportunities in corn post harvest have been slow to materialize
- Q1 farmer selling of corn was slow due to low prices

Affiliates improved results by $\$ 2.6$ million

## Ethanol Group

## Q1 '17 Highlights

- Margins improved year-over-year, partially due to Q4 2016 hedging activity
- DDG prices were lower due to loss of China demand and discounts taken due to persistent vomitoxin issues at the three eastern plants
- New Albion capacity came on-line during the quarter, leading to a first quarter production volume record

Five Year Performance

## Plant Nutrient Group

## Q1 '17 Highlights

- Higher-margin value added volumes rose slightly year-over-year while basic nutrient volumes declined by a similar amount
- Margins were down slightly on competitive pressure in value added products
- Farmer buying continues to be "just in time"
- Sold Florida farm centers for a $\$ 4.7$ million pretax gain

## Rail Group

## Q1 '17 Highlights

- Lease income down year-over-year on lower utilization rates and higher maintenance, freight, and storage expenses
- Higher car sale income year-over-year
- Record railcar repair and fabrication results

Five Year Performance

| \$ in millions, except margin | Q1 '17 | Q1 '16 | VPY | FY '16 |

| Pretax Income | \$6.1 | \$9.4 | (\$3.3) | \$32.4 |

## Retail Group

## Q1 '17 Highlights

- Exit from the business is well underway; continue to plan to close the stores in June
- Took $\$ 7.8$ million pre-tax charge for exit costs; all were employee separation costs
- Inventory liquidation helped generate higher sales and gross profit year over year

| \$ in millions | Q1 17 | Q1 ${ }^{\prime} 16$ | $V(P Y$ | $F Y^{\prime} 16$ |

## 2017 Outlook

- Continue to focus on enhancing portfolio performance, managing costs and improving margins
- Expect improved space income to continue
- Weather conditions impacting finishing wheat crops and corn/soybean plantings are in spotlight
- Margins look to be comparable to 2016 overall
- Vomitoxin impacts likely to persist until 2017 harvest
- Anticipate improved full year performance
- Application delays and lower net farm income have slowed the growth of value added products this season
- Still see a modest improvement, but later and more gradual than we previously thought
- Near term opportunities to expand the fleet are positive
